## WORK EXPERIENCE

---

### Intern in CODTECH IT SOLUTION

Sep - present

As a Front-End Developer Intern at CodeTech It Solution, I contributed to the development and enhancement of client-facing web applications. I worked closely with senior developers and designers to implement responsive and interactive user interfaces, gaining valuable experience in real-world development practices.

## PROJECTS

---

### Currency Converter Project

Developed a currency converter web application that allows users to convert amounts between various global currencies in real-time. The application leverages live exchange rate data to provide accurate and up-to-date conversions.

### Todo list Project

Developed a To-Do List web application designed to help users manage and organize their tasks efficiently. The application features an intuitive interface for adding, editing, and deleting tasks, with a focus on enhancing productivity and task management.
